A NEW DIRECTOR FOR BKD FORENSICS & VALUATION SERVICES

Mark E. Solomon
Director | Springfield
msolomon@bkd.com

Mark is a leader of BKD's Big Data & Analytics team. He provides oversight, strategy and direction on large data analytic projects and creation of data analytic products. His passion is creating solutions using advanced data visualization to allow clients to derive understanding and more efficient management of their operations and strategic initiatives.

He joined BKD with more than 25 years of software development experience working for entrepreneurial/early stage startup software companies in the health care and property and casualty insurance sectors. His experience includes innovation, blue ocean strategies and product development roles focusing on product design, including data analytics products utilizing leading business intelligence platforms.

Mark was a member of **BKD EDGE** innovation team and led the definition of several BKD product initiatives working with partners across the firm in several industries to bring innovation ideas to market. Mark is a certified iRise Modeler and uses iRise to help visualize product ideas and bring those ideas to market.
